Governor Tim Walz has dramatically transformed the purpose of education in Minnesota. Academic achievement is no longer the primary goal.

Learn about the shocking decline and collapse of Minnesota's K-12 Education under Governor Walz.

- Walz's education focus is transforming the student's values, attitudes, and beliefs into a woke, Marxist world view.
- This indoctrination is called "culturally relevant teaching" and is woven throughout the Walz education program.
- Expect what Tim Walz has to done to Minnesota education, he will do to America's schools too.

Attend this event to learn more about how Walz has been implementing his toxic agenda into the schools and what you can do about it.

Event speaker, Julie Quist and the Child Protection League have been actively fighting for the children of Minnesota for decades.
